Mobile: +91 0000000000

SKILLS

Languages: C++, JavaScript, C, PHP, Java
Frameworks: HTML, CSS, React, Node.js, Express
Tools/Platforms: MongoDB, Postman, Git, GitHub, MySQL
Soft Skills: Problem-Solving, Team Player, Adaptability

PROJECTS

School Website – Educational Portal | *HTML, CSS, JavaScript, PHP, MySQL* Sep 2025

- Constructed a responsive platform enabling students, staff, and admin to access and manage academic information, including attendance, marks, fee details, assignments and timetables with real-time updates.
- Designed a robust admin dashboard for managing classes, subjects, exams, events, scholarships, student/staff records, library, clubs, competitions, transport, payroll and website content – streamlining school operations.
- Applied a secure PHP-MySQL backend with role-based authentication and integrated communication tools like announcements, notices, leave management, helpdesk tickets, enhancing engagement and efficiency.

[GitHub](#) | [Live](#)

Event Management | *MongoDB, Express, React, Node.js* Jan 2025 - Jun 2025

- Created a secure full-stack platform with OTP-based login, enabling users to create, join and manage events while connecting with others seamlessly.
- Engineered a dynamic admin dashboard with real-time tracking, event-specific filtering and status management, improving operational efficiency.
- Executed QR-based payments and Cloudinary integration for secure storage of user data and media, enhancing reliability, participation tracking and platform scalability.

[GitHub](#) | [Live](#)

Appointment Booking Platform | *MongoDB, Express, React, Node.js* Aug 2024 - Dec 2024

- Developed a comprehensive medical appointment and medicine management platform, allowing users to book appointments and order medicines reducing manual processes by 50%.
- Crafted a user-friendly interface for patients, doctors, and admin, improving usability and streamlining appointment scheduling and medicine delivery.
- Integrated MongoDB and Cloudinary for secure storage and fast retrieval of user data and medical images, and implemented Online payment and order verification for reliable transactions.

TRAINING

Full Stack Web Development | [Placify Technologies](#) Feb 2024- May 2024

- Built full-stack web applications using the MERN stack, focusing on implementing API and integrating the front end with the backend to create dynamic, user-friendly web experiences.
- Gained hands-on experience in modern web development practices.

Tech Stack: HTML, CSS, JavaScript, MongoDB, Node.js, React, Express

CERTIFICATES

Cloud Computing | [NPTEL](#) Apr 2025

HTML, CSS, JavaScript | [freeCodeCamp](#) Oct 2023

ACHIEVEMENT

- Solved 50+ coding problems on [LeetCode](#) and [HackerRank](#) enhancing algorithmic skills. Nov 2025
- Successfully built and sold a fully functional school management website to a [Basic Public School](#), now used by 250+ students, teachers, and the principal to manage daily operations efficiently. Aug 2025

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug 2023 – Present
Computer Science and Engineering

D.N.Y College Madhubani, Bihar
Intermediate July 2020 - Mar 2022
PCM; Percentage: 74%
